

Lindsey Petsemoie

Lindsey began the WIOA program in January 2018; she is a single mother to 1 daughter, Dani. When she began the program she was employed part time at a local fast food establishment and she knew that she needed to do something different so that she could better care for herself and her child.

She has since completed the Dynamic Futures course where she learned basic job finding and job keeping skills, she also learned the correct way to create a Resume that would catch an employer's eye. She also completed successfully completed a Work Experience Position at the Holdenville WIOA Office where she gained the skills that she would need to work in an office setting. She is currently enrolled in the Medical Office Administration Program through MedCerts where she will gain the knowledge to work in a medical office as well as obtain her qualifying certificates for Medical Office Assistant as well as Billing and Coding.

Because of her office experience coupled with her classes she was hired on at Holdenville General Hospital as an Admissions Clerk through the On the Job training program. This employment will allow her the opportunity to grow and move up in the Hospital as her skills increase. She is on her way to the career that she has worked so hard to achieve.
