

My name is Evelyn, I have really benefited from the WIOA Program. I have been working for the past 10yrs as a CNA/ HHA. I have been working odd and crazy hours just to make ends meet, and only making \$10/hr. My plan was to save and continue my education to have a better and meaningful life, but it wasn't easy. I heard about the WIOA program through workforce and decided to try it, and I have not regretted giving it a shot. They have wonderful workers that care so much about the well-being of people. I am so blessed to have this lovely and hardworking lady, Mrs. Jessica Adkerson as my case worker who has helped me throughout this journey. She worked with all her heart and did everything possible to get me all I needed for my training. The program paid for my tuition and all other necessary things I needed for training, they also paid for my NCLEX exam. I had peace of mind to study and I made it successfully through school. Today I have graduated as a PRACTICAL NURSE, and I'm making \$18 -\$20 per hr. life is much better now, I'm even working on continuing to get my RN, and workforce will still assist me. I would greatly recommend this program to anyone who wants to better their life. Thank you all so much for all the good work.
