Success Story

CN-Kathy Rosamond, Norman Office

Joshua Barrera PID 782647-Adult program

Joshua and his wife were both unemployed. Joshua became worried about how he was to support his family so he came to WIOA seeking assistance with CDL training. Joshua qualified and enrolled into the WIOA program. Unfortunately, training funds were depleted so Joshua would have to wait until funding for the new physical year was approved. While Joshua was waiting for funding, he did find employment to allow him to pay his bills while he waited. Finally funding was approved and Joshua was able to begin training. CN received word from Brian Gainey at CDL University that Joshua passed his testing the first try! Joshua quickly gained employment driving a truck for Commercial Distributing Inc, out of Oklahoma City making \$20.00 per hour and working 40 to 50 hours per week.
