

Hello my name is Jeff Blackburn. I had lost my job a couple weeks before Christmas in 2017. I had no idea what to do or how to do anything; it was the first time in my life being to be on unemployment. I couldn't find a job that time of the year so somebody told me about WIOA and I've always wanted to get my CDL. I did not know what WIOA was and I would not have been able to get my CDL if I had not contacted the workforce office. They were very helpful and helped me with all the information and paperwork. Once I got approved I went to school to get my CDL and I attended CDL University, which is a very good school and I would recommend them to people that are trying to get a CDL. I also have recommended a lot of people to WIOA that are looking for a job, are on unemployment, or could not afford to get their CDL. I think this is a very good program if it wasn't for this program I would probably be at a dead-end job today. I got hired on at Dolese driving a Cement Mixer. Now that I have a good paying job I can provide for my family and pay my bills without any stress or worries.

Thank you,

Jeff Blackburn
